Sensei Prepares for New Year Launch of Legal Technology Book

Sensei Principals Co-Author Upcoming Technology Guide for the American Bar Association

September 17, 2007 (Fairfax, Virginia) | Sharon D. Nelson, Esq. and John W. Simek, established writers and Principals of Sensei Enterprises, have collaborated again to co-author the upcoming Legal Technology Guide for Solos & Small Firms book, presently scheduled to be published and available through the American Bar Association (ABA) January of 2008.

“This upcoming book will serve as an informative guide for legal professionals seeking a helpful resource from credible, reputable players in the legal technology arena,” states Ms. Nelson, President of Sensei Enterprises. “Technology progresses forward at lightning speed, and this guide will serve as an updated, timely resource for lawyers seeking to improve the business processes and productivity of their legal practices through the usage of technology.”

A new twist in the development of this legal technology book is the inclusion of input and insight from Sensei’s own Director of Computer Forensics, Michael Maschke. “Prior to his forensics leadership role, Michael had served two years as our Director of Information Technology directly servicing law firms with their day-to-day technology needs,” shares Nelson. “Michael’s debut as co-author in this book is a testament to the book’s real-world advice about all things tech—the advice we tender in the guide is advice we would follow ourselves.”

ABOUT SHARON D. NELSON

Ms. Nelson is the past President of the Fairfax Bar Association, a Director of the Fairfax Law Foundation, and past chair of the American Bar Association’s TECHSHOW Board. She currently serves on the Governing Council of the ABA’s Law Practice Management Section and as Chair of its Publications Board. She is a member of ARMA’s E-Discovery Advisory Board and a member of the ABA’s Advisory Panel. She is a member of the governing Council of the Virginia State Bar, a graduate of Leadership Fairfax and serves on the Virginia State Bar Mandatory Continuing Legal Education Board and the Virginia State Bar Special Committee on Law and Technology. Ms. Nelson is also a member of the Planning Board of the Pacific Legal Technology Conference and has recently launched a new ABA podcast series entitled, “The Digital Edge: Lawyers and Technology.” Ms. Nelson’s affiliations further include her membership to the American Bar Association (ABA), the Virginia Bar, the Virginia Bar Association, Fairfax Bar Association and Women in Technology. Ms. Nelson recently adds blog author to her credentials with the 2007 launch of her electronic evidence blog, Ride the Lightning.
